

The first annual GMLSC Bike Ride took place on August 18th, 2025, with 6 enthusiastic bikers participating. The 8.7 mile trip from Crego Park followed the Lansing River Trail, navigating to the R.E. Olds Transportation Museum, then on to Moores Park behind the GM LGR plant and back to where we started for refreshments and stories. It was a perfect day with sunny skies and mild temperatures. The group unanimously agreed we should do it again with even more members and guests. Even for the rookie riders and those that hadn't been on a ride in 30 years, the ride was very stimulating and enjoyable. More rides to come!
