

Annual Business Meeting, September 23

Held for the first time at the REO Town Clubhouse

This was a meeting to report on the health of our club, annual financial transactions, and elect officers & Board of Directors members. We were fortunate to have Mike Perez, GM Vice President of Global Workplace Safety and Labor Relations. He address the group as well as having the two local Plant Directors (Managers) Troy Comiskey LGR and Rick Smearman LDT in the audience. As you can see we ate and had some good social time as well. Thanks once again to Bob Benezette for chairing this annual event.
